## AN ENJOYABLE SEASON

As in years past, the students and staff members at Wrangell Institute enjoyed a wonderful holiday season. This was made possible through the efforts of everyone. Students contributed wholeheartedly in making the season a source of pleasure. They wrapped gifts, filled stockings, decorated trees, prepared food, and performed many other acts that deserve comment.

Staff members took it as a matter of course to participate in making the season enjoyable. They too prepared food, served food, decorated, wrapped, contributed to the Christmas fund, and did many other things that we are sure cannot be recalled here.

Many other people contributed to the holiday mood here at the Institute. The people from the town of Wrangell, and others from thousands of miles away played a part in bringing Christmas to us.

Parents from all over Alaska help greatly in creating a bond between the students and their home villages. The many gifts and other items sent by parents caused many happy moments for our children.

We extend our thanks. May you have a HAPPY NEW YEAR!

## HELPFUL COUNCIL

The Student Council was a very active organization during the last few days before Christmas. The president, Evelyn Joseph, called a meeting. At this meeting it was decided that all Council members would assist teachers when their classes went Christmas shopping.

Two Council members were assigned to each trip. The teachers praised highly the assistance given them.

Our thanks to the Student Council!

## HEALTH

In health we have learned how to grow well and strong, how to keep clean, and how to have good eyes and good ears. We also learn how to play safely at school.

## A GOOD CHRISTMAS

On December 25, we got our stockings. We had candy, apples, nuts, and oranges in them.  
We got dolls and other things too.

## WEATHER

After Christmas it started to snow and the ground was all white. It snowed until January 3rd.

Most of the children like to play in the snow. Some of them like to walk around the campus. They were very happy when there was lots of snow.

They put snow on their faces or on their heads.

The snow was about six inches deep, but maybe the snow will melt in a few days.

## CHRISTMAS LIGHTS

Christmas week the students of Wrangell Institute went by section to see the Christmas Lights in town. Some sections went on one day and others on another..

Mr. Rifenbery was the bus driver. He stopped once in a while in front of a house and told who lived there and who had decorated it.

The students saw many kinds of lights. The Christmas trees were decorated with small colorful lights. The town of Wrangell was sparkling from many different kinds of lights. It was a very beautiful sight.

After riding through town, the students returned to the institute again viewing the many lights along the way home. All enjoyed the Christmas Light Tour.

CHRISTMAS DANCE

On December 22nd, we had a Christmas dance. It started at seven o'clock p.m. and ended at ten. All of the staff members were invited. We enjoyed watching them dance. While they were dancing, Mr. Murrell took snapshots with his camera. After the dance, we had fancy sandwiches, stuffed dates, cookies and punch, which were prepared by the kitchen staff.

CHRISTMAS PROGRAM

December 21st was the date on which we had our Christmas program in the school gym. Our program was about "A Christmas Joke". Everyone in our class had to say a short poem, while others showed pictures they had made. The program lasted for a long time. All of the rooms in the Institute had a little program too. Some of the folks from town, and the staff members came to watch it.

## "Say CHEESE"

Mr. Lemley has been taking some pictures of the students. He had some of them stand up on chairs, and some were sitting down on the floor to get in on the picture. After he took our picture, we watched him take the picture out of the camera. The type of camera is a Polaroid land camera. It develops pictures very fast.

## We Like To Experiment

We have been working on our Science, and doing some experiments. The unit we are now studying is "How Do Heating and Cooling Change Materials?". We have heated and cooled liquids and gases to see if they will expand and contract.

## THE STRONG MAN

When I was a little boy, my mother would sometimes say if you want to be a big strong man, eat three square meals a day. Just what was square about the meals? I want some day to know. But now I eat three times a day, I eat good food to grow.

## JACK'S HOUSE

If you want to have a good time. Why not go to Jack's house? If you want to know where that is just take a walk on some summer morning down a lovely country road. If the road runs uphill and downhill with trees on one side and also trees on the other maybe you will be on the right road. If you see a sleepy little river and fields that go on and on until they come to the blue, blue sky. Maybe you will be going where you want to go. If all at once the road turns and if all at once it stops, you will have to stop too. Then if you see a big white house with a white fence and a big white gate in front of it then it is time to take off your cap. This will be Jack's house. You will hear the ting-a-ling of a bell as you open the gate. A little dog will bark at you. Do not be afraid of him. He will bark and bark so that Jack will know that someone is coming. But you can tell by his tail that he is happy to see you. So open the gate and walk in.

Marie Neakok

## SNOWING

It snowed after Christmas, and we went sliding by the school and played in the snow. Mr. Sorensen told us not to throw snowballs at people because we might break the windows and peoples glasses.

Our basketball team coach, Mr. Rifenbery, will be leaving us on January 12, 1963, for a Field Management Training Program until June 15. He plans to return to Wrangell next fall. We all wish him luck on his training program.

Since December is the month of Christmas Holiday there has not been very much of any type of sports going on the campus.

The Eagles' last game was held on December 14, 1962, which turned out to be a defeat for the Eagles. The final score was 22 against 24 with Junior Varsity leading by two points. It was a very close game.

The B Squad's last game was held at the gym in town against the eighth grade of the Wrangell school. This game was also a defeat for the B Squad. The final score was 7 to 15 with the towners leading 8 points.

Our young lady of the month has dark brown hair. She stands 5' 3/4 " tall. She has dark brown eyes. She is one of our cheer leaders. She is a well liked girl she's quiet, nice and is very easy to get along with. WHO???

## SILVER RIVER COUNTRIES

Just lately our class has been studying about the Silver River Countries of South America. The three countries are Argentina, Uruguay, and Paraguay. We have studied about the people, their government, and what they raise on the land. We have also studied what they export and import.

Two of the countries, Argentina and Uruguay, have developed into prosperous agricultural countries. Because of her inland location, selfish dictators, and terrible wars, Paraguay has been kept from making much progress. It is a poor, backward country.

Russell James

## CUB SCOUT PROGRAM

On December 17, 1962 the Cub Scouts went to town for a Christmas program. Before our skit, there was one about caroling, and one about the three kings.

Ours was about a Russian Christmas of long ago, starring Charlie, the Chicken. We put five piles of grain. They were Single Blessedness, Marriage, Poverty, Wealth, and Death. He chose from the "Marriage" pile.

While we were in town, Mr. Rifenbery said he would go somewhere in the states until next fall, unless something stopped him. He will go sometime in January.

After that Santa Claus came and gave us candy canes. He gave us two for the ones who had little brothers and sisters at home.

The Cub Scouts that are in Den 10 are: Eugene Asicksick, Daniel Callahan, Alfred Elachik, Carl Fox, Louie Lee, George Prince, John Ruhl, and John Teddy Roberts. Daniel Callahan

## CHARLIE CHICKEN

Mrs. Johnson has a live Chicken, and she named the chicken, Charlie Chicken. Once Charlie was in a program.

There were five piles of grain. The name of them were Marriage, Single Blessedness, Wealth, Death, and Poverty. Mischa put Charlie down. He had to eat from one of the piles of grain, so Charlie Chicken went over and ate from "Marriage". He was going to eat some from "Death" too, but Mischa picked him up.

After the program was over, Frank Prince took him back to the classroom and Mrs. Johnson gave him something to eat.

## SANTA CLAUS

On December 24, Santa passed out the presents. The Dorm Council helped him pass them out. We went to the gym and sang carols until Santa Claus came.

I watched him pick up the first big present and he called my name. I didn't expect to have that big present. It was a model car. I also received a necktie and a belt. When I opened the big present, I had nuts, candies, fuzzies, and cookies.

## FIVE LITTLE FISHES

We have three fish and two more that Mrs. Rifenbery brought up here. I think she was going to clean her closet or do something, so she brought them up here. She didn't say anything about bringing them back to her. We are going to change the water soon.

This afternoon, Frank Prince tried to hold one of the fish. He couldn't get hold of the fish. We have big and little snails. There are rocks and shells in the fish bowl.

## CHRISTMAS AT THE INSTITUTE

Christmas here is not like at home but we all tried very hard to make it happy for one another. On the night of the twenty fourth we all went over to the gym and sang carols the next day also was an exciting one. The boys came over to the girls dorm sort of like a lepenhouse. They felt dust but found it only here and there. After the boys went back to their dorm the girls visited their dorm and inspected it too. Also our Christmas dinner was wonderful. Each child received a stocking full of candy and an orange and apple. We especially wish to thank Mr. Rifenberg for making it a happy Christmas for all of us.

WE WANT TO THANK MR. BALLARD AND THE GUIDANCE DEPARTMENT FOR EVERYTHING!!

### SPLITTING UP

Now that the holidays are over and we are starting a new year, CLASS J has divided itself into two groups. We have split up the ninth grade from the students own opinion as whether or not they thought they should remain in the ninth grade, or go back to the eighth for another year. That put eleven of the students in the ninth grade and eighteen in the eighth grade.

We are going along nicely now and hope to keep going that way!

EVELYN JOSEPH

### THE YEARBOOK

MR. Murrell, Assistant Department Head Guidance, has proposed that the boys in Room J make a yearbook for this year. Funds for making it were to be drawn from the student council treasury. Some of the money will be raised by selling things if everyone wants a yearbook. Pictures were taken of some students in the school.

Mr. Murrell also planned to get the students to make a student handbook for the students next year. In it was to be a history of Wrangell Institute. It will also have the information needed by the new students.
